```java
public class GenerateOTP {
  public static String
generateOTP() {
    int randomPin   =(int)
(Math.random()*9000)+1000;
    String otp
=String.valueOf(randomPin);
    return otp;
  }

  public static void main(String[]
args) {
    String otpSting
=generateOTP();
    System.out.println("OTP :
"+otpSting);
  }
}
```
